

URINE SAMPLING

Remember to take a urine sample for any patient who presents with any of the following signs and conditions:

- Suspected Pregnancy (***pregnancy testing kit fees apply***)
- Known Pregnancy
- Abdominal Pain
- Urinary Symptoms
- PV Bleed
- Genitals Symptoms (including suspected STIs)
- Vomit
- Discoloured feces
- Lumbar Pain
- Inguinal Pain
- High Temperature
- Dehydration
- **ANY OTHER INSTANCE WHERE YOUR GUT FEELINGS TELL YOU IT IS THE RIGHT THING TO DO!**
